Hi Shari,

As we indicated in our March 31st letter, the County Sanitary Code, as it stands now, does not account for the vertical groundwater use restrictions within an aquifer in the restricted zone. Therefore it needs to be amended to reflect such change. This was one of the conditions we mentioned in that letter. I thought I would bring this to your attention.

The Power point looks good. Thanks and see you tonight.

Wally

Wally,

Attached is the draft powerpoint that changed slightly since you saw it. Please let me know if I need to make any changes. Slides with the maps will be fixed when I get into the office. Shari
